Do you have a permit or IFQ to sell?
Would you like a hassle-free transaction?

GSI would like to introduce Dellarae Mattila. Dellarae comes to us with 20+ years of experience in selling Marine Electronics. Born in the Pacific Northwest, she lived in Alaska until 1985 when she moved back to the Seattle area. She is 100% dedicated to the sale of your Permits and IFQs.

You can go online to www.gsiboat.com and post what you want to Sell 24/7. This function will notify all the Buyers immediately, or you can call Dellarae at your convenience. Either way, Dellarae & GSI are working hard to earn your business.

As a Buyer, you are able to post what permit you want online 24/7. This function will notify all the Sellers immediately; it is a win-win situation. No matter what price you are selling at or willing to purchase at, let us know.

Additionally, GSI offers one of the most competitive fees in the industry:

- 2% Fee on Alaska Permits
- 3% Fee on IFQs
- 4% Fee on selected West Coast Permits.
- Minimum commission is \$1000.

GSI will handle all of the paperwork as well as escrow the funds.

Tel: 800.284.7775 Cell: 206.351.8775 Fax: 206.283.6973
permits@gsiboat.com

GSI is like a crew member, only GSI is working 24/7

When the fishing season started I thought this was going to be your typical slow, quiet summer and I would get to spend a lot of time with the family. However, the last issue must have lit a fire under scores of folks from Nome to San Diego and out to Hawaii, because I ended up getting over 20 new listings with 17 that are posted in this issue. The other 3 simply didn't get their information in on time. As a kind reminder, the deadline for the next issue of the GSI Vessel Update will be Friday October 17. Get your stuff in and your boat will be viewed by over 100,000 prospective Buyers.

What didn't surprised me was the number of Sellers calling in that have had their boats listed for sale through other brokers, but have never received coverage like the GSI Vessel Update, let alone the response and quick sale that their friends received by using the services of GSIBoat.com. Thinking of Selling? It's never too late to list your boat with GSI.

GSI's philosophy is pretty simple: Fishermen work long hard days, and the last thing they want to do is sign over their first born just to get a vessel survey, or get rejected from talking to the Seller. We figure if you are calling or eMailing about a boat then you are probably pretty interested, and the last thing we want to do is hinder your ability to purchase that vessel. If you have any requests or suggestions on what else you would like to have available online, let me know. You're a Buyer, but don't see what you want? Get immediate updates simply by going to www.gsiboat.com, click the "Boats Wanted" tab, click the "Add your Post" tab, complete the easy squeeze form and not only will your request be available to Sellers, you will be apprised of any new listings automatically.

This is what you get when you list your boat with GSI:

- The GSI Vessel Update reaching 100,000+ prospective buyers,
- The Best Website around,
- Unlimited Online Photos,
- Online Survey,
- Seller Contact information,
- Your cost - \$0.00.

I think you'll agree, GSI is like a crew member, only GSI is working 24/7 to get your vessel sold and you don't even have to feed us. What is the competition doing for you?
